

FELINE

INDICATIONS:

- Obesity.
- Diabetes mellitus type II.

CONTRAINDICATIONS:

- Pregnancy, lactation, growth.

FEEDING DURATION:

Prior to prescribing, individual target weight should be determined. The energy allowance (kcal) per kg target bodyweight is based on the cat's body condition score (BCS) (ie. 30 kcal/kg BW for a BCS of 3.5 or 4.0 and 35 kcal/kg BW for a BCS of 4.5 or 5.0). If the cat refuses to eat or loses weight too rapidly, there may be a risk of hepatic lipidosis.

• High selected fibres, chicory pulp and psyllium that help promote a lasting satiety effect in cats and contribute to increase the volume of the food.

• Chondroitin sulphate and glucosamine help to maintain normal mobility in the highly stressed joints of obese pets.

• High mineral and vitamin concentration compensate for the energy restriction ensuring a proper nutritional balance.

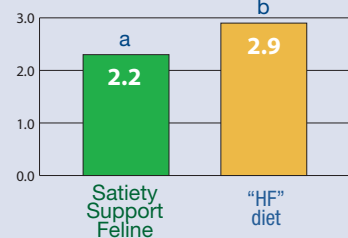

• Essential fatty acids (omega 3 and omega 6) and trace elements (Cu, Zn) helps support a healthy skin and shiny coat.

FURTHER INFORMATION:

Significant reduction of "undesirable" behaviours (begging, stealing food, meowing and clingy behaviour) over the entire course of the diet.

Begging score over 5 weeks of dieting.

Royal Canin, Feline Weight-loss clinical study in Lyon, 2007-2008

KEY VALUES:

Protein:	34 %
Fat:	9 %
Carbohydrate:	18.7 %
NFE:	27.6 %
Dietary fibre:	23 %
Crude fibre:	14.1 %
Metabolisable energy (C)*:	2 921 kcal/kg
Metabolisable energy (M)**:	3 090 kcal/kg
Omega 6:	1.95 %
Omega 3:	0.34 %
EPA-DHA:	0.15 %
Calcium:	1.28 %
Phosphorus:	1.17 %
Sodium:	0.56 %
L-carnitine:	200 mg/kg
Chondroitin + glucosamine:	500 mg/kg

Synergistic antioxidant complex:

Vitamin E:	700 mg
Vitamin C:	300 mg
Taurine:	2 500 mg
Lutein:	8 mg

* According to the NRC 85 modified ATWATER

** Energy measured by Royal Canin Centre

20 g sachet

Box: 14 X 20 g sachets

Actual size

INGREDIENTS:

Dehydrated poultry meat, vegetable fibres, tapioca, wheat gluten*, wheat flour, maize gluten, hydrolysed animal proteins, animal fats, minerals, chicory pulp, sodium phosphate, fish oil, psyllium husks and seeds, taurine, hydrolysed crustaceans (source of glucosamine), marigold extract (source of lutein), L-carnitine, hydrolysed cartilage (source of chondroitin)

***LIP (Low Indigestible protein) : protein selected because of its very high assimilation.

RECOMMENDED DAILY INTAKE:

Target body weight of cat	> 30 % OVERWEIGHT			15 % to 30 % OVERWEIGHT			Maintenance		
	Sachets per day	Sachets per day	Sachets per day	Sachets per day	Sachets per day	Sachets per day	Sachets per day	Sachets per day
