

CANINE

## INDICATIONS:

- Food elimination trial
- Food allergies with dermatological and/or gastrointestinal signs
- Food intolerance
- Inflammatory Bowel Disease (IBD)
- Exocrine Pancreatic Insufficiency (EPI)
- Chronic diarrhoea
- Bacterial overgrowth

## CONTRAINDICATIONS:

- Pancreatitis or history of pancreatitis
- Hyperlipidaemia

## FEEDING DURATION:

When a food allergy or a food intolerance is suspected, the dog's diet should be changed without any food transition. The hypoallergenic nutritional management will be continued for the pet's lifetime.

• Soy protein isolate digest, which is composed of low molecular weight peptides, is highly digestible and of very low allergenicity.

• EPA & DHA, omega-3 long-chain fatty acids, help maintain skin health and intestinal mucosal integrity.

• Very high amounts of biotin, niacin and pantothenic acid, in combination with the zinc-linoleic acid complex, reduce water losses through the skin and support the barrier effect of the skin.

• The combination of fermentable fibres (beet pulp, FOS) with zeolite helps to balance the gastrointestinal microflora and protect the intestinal mucosa. This food is wheat gluten- and lactose-free.

## FURTHER INFORMATION:

Hypoallergenic Canine contains «Intensive Colour» (with high L-tyrosine content) for optimal hair pigmentation.  
Hypoallergenic Canine is recommended for nutritional support in cases of **chronic pruritic dermatosis** with an allergic component, including **atopic dermatitis**.

## KEY VALUES:

Protein:	21%
Fat:	19%
Carbohydrate:	37.9%
NFE:	42.6%
Dietary fibre:	5.7%
Crude fibre:	1.0%
Metabolisable energy (C)*:	4,254 kcal/kg
Metabolisable energy (M)**:	4,085 kcal/kg
Omega-6:	4.26%
Omega-3:	0.82%
EPA & DHA :	0.35%
Calcium:	1.0%
Phosphorus:	0.8%
Sodium:	0.45%
Linoleic acid:	4.1%

## Synergistic antioxidant complex:

Vitamin E:	600mg/kg
Vitamin C:	200mg/kg
Taurine:	2,100mg/kg
Lutein:	5mg/kg

\*According to ATWATER's equation

\*\*Measured by Royal Canin Research Centre

## INGREDIENTS:

Rice, hydrolysed soya protein isolate, animal fats, minerals, hydrolysed poultry liver, beet pulp, soya oil, Fructo-Oligo-Saccharides (FOS), fish oil, taurine, borage oil, L-tyrosine, marigold extract (source of lutein).

## RECOMMENDED DAILY INTAKE:

The daily intake may be divided into 2 meals.
